Objective:

I am a budding Manstack developer with a foundation in both frontend and backend development. I am eager to learn new technologies and am committed to working hard to complete tasks efficiently.

Projects:

1. Fresh & Fit
A Fitness Trainer Booking Website

Timeline: 7-8 Days

- Admin has the authority to either accept or reject new trainer applications after reviewing messages.
- Customers can efficiently book fitness trainers based on available time slots. -
Users have access to view their activity logs or all recorded activities.
